

Whole Home Energy Solutions

The program starts with a comprehensive Home Energy Assessment, giving you personalized insights and helpful energy-saving products. From there, you can choose additional upgrades—like insulation or high-efficiency equipment—supported by generous rebates up to \$7,500 and 0% APR financing, making it easier and more affordable to improve your home's comfort and efficiency.

Home Energy Assessment

- Whole-home energy audit
- Comfort & indoor air quality evaluation
- Personalized efficiency report
- Installation of eligible energy-saving items:
 - LED bulbs
 - Smart power strips
 - Efficient-flow showerheads
 - Faucet aerators
 - Water heater pipe insulation
 - FREE installation of Smart Thermostats purchased through your utility Marketplace

Who Qualifies?

- Live in a single-family home, townhome/condo, or multifamily building with fewer than 4 units

After your assessment, you will receive a report detailing which energy-saving measures make the most sense for your home:

Rebates and 0% financing may be available for:

- Replacement or upgrade of HVAC equipment, water heaters, gas and electric appliances
- Insulation upgrades and comprehensive air sealing
